90° Angled Driver Drill Tool

- 90° angled driver allows access to tight corners
- 360° rotating position handle for optimum control
- Die cast zinc alloy head with ball bearing guides for stability
- Heat treated steel precision gears for maximum torque
- Quick change chuck to ensure tool is held securely
- Use with bit holders, screwdriver bits, hex drills and drill/countersinks

This 90° Angled screwdriver head converts any power drill into an offset, quick-change screwdriver. Allows a power drill in places that would be impossible to reach with a straight driver. Can also be used with TOPTUL Item No. FTGA0808 (Universal Swivel Magnetic Quick Release Bit Holder) to increase the working angle.

New Designed Anti-Slip Phillips Tips

THESE RIBS HELP REDUCE CAMOUT OR SLIPPAGE OF THE DRIVER BITS DURING OPERATION

This advanced Phillips tip ensures the driver is securely fitted to the screw. It can effectively eliminate the possible damages to the screw heads.

The ribbed and precision machined tip (driver) also provides consistent engagement to the screw. It is perfect to use and drive the screw in the hard to reach areas.
