

HyFlex® 11-627 Glove

Feel How Comfortable Cut Protection Can Be.

Safety, high wear and fit, perfectly balanced.

The HyFlex® 11-627 glove features a polyurethane coating dipped on a liner structure of Dyneema® and LYCRA®. This innovative combination delivers a high level of abrasion along with cut protection while also preventing cuts and snags to the back of the hand. The palm coating provides dry grip and longer wear—so your workers can confidently handle small, sharp objects.

Optimize workforce performance.

Protect the hands of your workers and your productivity with the HyFlex® 11-627 glove. Perfect for a wide range of applications, the unique glove structure offers excellent abrasion resistance, cut protection, dexterity and comfort. The polyurethane coating provides consistent wear and durability.

Outstanding Product Attributes & Benefits

Dyneema® and LYCRA® liner

- EN 388 Level 3 / ANSI Level 1 cut protection
- Cool and comfortable feeling
- Relaxed, natural fit liner helps reduce hand fatigue
- Available in a wide range of sizes to protect more workers (6–10)

Polyurethane coating and liner combination

- Improves tactile sensitivity
- Excellent grip in dry environments
- Effective control in minimally oily environments
- Breathable liner increases worker acceptance and safety compliance
- Durable material is machine launderable
- Excellent abrasion resistance

Industries

- Aerospace/Transportation
- Automotive
- Construction
- Metal Fabrication
- Paper Manufacturing
- White/Durable Goods

Applications

- General material handling
- HVAC
- Metal finishing
- Sheet metal handling & finishing
- Small sharp part handling & assembly
- Stone & tile installation

11-627	Dyneema®, Lycra® and nylon liner, polyurethane palm coating, grey	6 (XS), 7 (S), 8 (M), 9 (L), 10 (XL)	144 Pairs / Case

Ansell HyFlex® Line

The HyFlex® 11-627 glove is part of the HyFlex® Cut-Resistant range. The HyFlex® glove line is comprised of four premium performance ranges: Precision, Cut-Resistant, Oil-Repellent, and Specialty products. Products that provide "cut resistance" and "cut protection" do not completely prevent or eliminate the potential for cuts and punctures, and are not intended or tested to provide protection against powered blades or other sharp or rotating equipment. Users are encouraged to always use caution and care when handling sharp metals. For a comprehensive review of our Precision Protection™ line visit www.ansellcanada.ca or call 1 800 363-8340 and speak to a customer service representative.
