The world leader in hand protection

HyFlex® 11-920

 Oil repellent

 Medium

Mechanical protection

Style no	Type	Liner material	Coating material	Cuff style	Colour	Sizes	Length mm	Packaging
11-920	Palm coated	Nylon	Nitrile	Elasticised knitwrist	Blue coating on blue liner	6, 7, 8, 9, 10, 11	208 – 273	12 pairs in a bag 12 bags in a carton

- In the HyFlex 11-920 glove, Ansell incorporated its patented Ansell Grip Technology™. Microscopic channels in the glove coating guide away the oil resulting in a secure glove-to surface contact. This allows the wearer to handle small and medium-sized components lightly coated with oil or lubricant in all confidence.
- Protects skin from oil contamination. Incorporating all the essential features of the Ansell HyFlex glove range, wearers appreciate the outstanding fit, comfort and dryness, as well as the glove's excellent dexterity and tactility.

Featured technology KVSD

Primary industries

- Automotive and transportation
- Machinery and equipment
- Building and construction
- Mining
- Metal fabrication
- Oil, gas and chemical
- Recycling
- Maintenance

Note: Not a chemical resistant glove.

Ideal applications

- Assembly and finishing
- Quality control
- Metal fabrication
- Assembly of white goods
- Light metal fabrication and handling
- General site and factory maintenance

EN388

Risk Category II

Testing compliant to AS/NZS 2161
Anti-static according to EN1149

Use product only as specified. Products that provide 'cut resistance', 'cut protection', 'puncture resistance', 'puncture protection', 'abrasion resistance' or 'abrasion protection' do not completely prevent or eliminate the potential for cuts, punctures or abrasions, and are not intended or tested to provide protection against powered blades, serrated or other sharp or rotating equipment. Products that provide protection against sparks or flames are not 'fire-proof' and do not completely prevent or eliminate the potential for burns or associated injuries. Users are encouraged to always use caution and care when handling sharp or abrasive materials, chemicals, or other hazardous or dangerous substances. Any information or data provided is offered solely as a possible suggestion for use in making your own decisions or product choices. It is the responsibility of a product user to assess the level of risk and to determine the protective equipment required or appropriate for the user's particular purpose. Nothing in this brochure should be construed as a representation or warranty of merchantability or that any glove is fit for a particular purpose.
